Markering Mohammad ...

President Bush has called Iron part of the axis of ovil. and those who remember the American hostage crisis of years and likely imagine the place as a puritanical desert. But reporter Elnor Burkett, who recently visited fram shows that this is not necessarily true "If elsewhere fundsmentalism has declared war on technology," she writes, "in irgo the hars live in harmony, and the result feels like a fundamentalist theme park, with the Ayasollah Knomeini cast in the role of a not sobenevolent Walt." But the mullahs are still in charge. and the wonders of technclogy are employed to market and bolster Islam Burkett reports on the contradiction that is Iran where citizens debate Koranic Interpretations on cell phones but insst they are misunderstood by the Western world, and still deny that tranians ever took Americans hostage

... and the Media

The folks who bring you your evening news are also in denial, or so says one of their most promiment critics. Former CBS newsman Bernard Goldberg, whose new No. 1 best-setler Bias A CBS Insider Expases How the Media Distort the News, is causing quite a sirr way beyond network headquarters, accuses media liberals of distarting reality to reliect their own view of the world in a hard-hitting interview with writer Harry Stein, Goldberg details his indicinients and says that the only way to change things is for the American people to tell the networks, "As long as YOU IGNOTE US. WE WIll ignore you."

The Kid, the Mon, and the QB

You won't want to ignore Kid Rock, though, especially now that he's hooked up with America's feisty rock-star girlfriend Pamela Anderson, who s said she wants to tour with Rock and strip onstage during his shows The couple has become a gossip-column stable.

Boughing It

My perfected has never been on a camping top i had spent many vacations camping out and now found little delight in roughing it. But Makedy kept badgering me to take her camping, so I devised a plan to take her on a trip from hell trinking it would dissuade har from wanting to further commune with nature. I've never been so wrong in my life.

I dragged out all my old camping gear, and we went shopping for a new tert and air thattress. Melody was having a feld day acquiring all the compact por able goodies she thought would make the adventure something to treasure. We loaded the car and set out into the desert to a remote location where there were a few hot springs. As we rolled into the campground we spolled a

sign that proclaimed a clothingoptional area. Melody, one of the straightest women I've ever known (or so I thought). had no reaction to this.

We set up camp at the upper springs and then molored back to the grassy area at the lower springs. Most people were either lounging on the lawn or sitting in the hot lubs. and few had on so much as a scart Melody dign1 mss a beat. She stripped, revealing her tight 100-pound body. We jumped into one of the tups and enjoyed a nice soak and a bit of conversation with other campers I was amazed at how relaxed Melody was with public nucity. A number of menwere scoping Melody's breasts. which have permanently erect ripples After a lime, we exited the pool spread our towers on the grass, and began to shoot the breeze with some guys who were reckning on lounge chairs.

Melody got into an animated discussion with one of them Jarrod was middle-aged, lairly tall, well built, and had a arge pens that was hard to ignore I got involved in a game of chess with another young guy while Melody carried on with Jarrod After managing a draw, I want back to Melody, who had invited her new friend to but campate for cocktails

As I delivered a round of drinks, I noticed that Jarrod had half a hard-on Mellody looked right at Jarrod's crotch giggled, and asked, 'May I touch 117" I was shocked, because this was so out of character for her Jamod said nothing as she reached over and grabbed his rod, which fully stiffened in a heartbeat. She cave it a lew strokes, dupping his balls with her other hand I instantly went hard myself, just as it became apparent that Malady, who had closed her ayes was silently imagining Jarrod's cock inside her Jarrod reached over and londled her lits while I gave my own member a few strokes. I realized that we were fully visible to other campers, so I shapped the two out of their revene by suggesting we take this inside.

Melody orinned and lerked on Jarrod's member. "Come on, big guy," she said, and led him into the tent, which was barely large enough for the three of us. I followed them and watched white Melogy werl to work on Jaroots cock She sucked and stroked it until he was mouning and groaning. When it was oute obvious that he was going to blow his load she disengaged her lyps from his throbbing johnson and gave him a few seconds to settle down before mounting him. She rocked slowly back and forth, and within a minute or so began having a violent orgasm it was too much lor me. I splattered myself with my own come while Melody writhed, impaled on Jarrod's

dick until he gasped and shot his road deep within her

Melody climbed oil oi Jarrod, took his softening member in her mouth for a moment, then kissed him lightly on the lips and said. 'It's time for you to go.' He crawled out of the tent and I took my place beside Melody. I worked my way down to her steamy, dripping pussy, and ate her to another crashing climax. We made love all weekend, between trips down to the hot springs. Melody was the center of attention every time we strived for a soak, so I assumed Jarrod had Informed his acquaintances about the encounter.

That was ten months ago. I've regained my appreciation for the great outdoors and Melody and I have been camping many times. We haven't had another experience like that one, but we talk about it all the time during our now explosive lovemaking — J. G. Arizona

Entracurricular Sex

I was slitting in class one evening when an attractive young woman humod in late. She was wearing a fitted Oxford shirt over cropped khaki pants and sandals. The classroom was crowded and we were all crammed in together around tables that formed a large U. I watched as she struggled to get into her chair, and when she bent over to wedge her way into it. I was granted a spectacular view down the front of her shirt. I thought in the next nitilisecond my gaze would behold a gimpso of aureole, or perhaps an entire hippie.

Alas. The sight vanished as she settled into the chair. As the hour proceeded. I began to wonder if this woman was wearing a bra. After all, I had seen so much of her breasts without the merest hint of a strap or cup. Then I noticed the reason. That seen so much. The top three buttons of her shirt were undone. The lirst closed button was right between her tits, which looked to be what the French consider the perfect size just enough to till a champaone glass.

During the break I tried to find her for a closer look, but she'd disappeared With nothing better to do, I went back to class, hoping that history would repeal itself. That once again this provocative creature would settle into her chair and offer me a flash of her bosom.

Right before class recommenced she carre in, and as before, awkwardly sall down. This time, however, the tautness of her shirt gave way enough for me to spy the whiteness of her bra. Disappointed that I could not fantasize about her unbound breasts charing against the cloth of her shirt, its roughness making her hipples erect, I none-theless found her choice to leave open three buttons quite, well, titillating

Phantom Planet is immediately suspect. The band which copped its name from the great but abscure 1961 shrunken-astronaut flick wears is Hollywood ineage on its CD steeve. The drummer Jason Schwarizman is an india movie suar and Francis Ford Coppolats nephew and the front man fead enger/guitar at Alex Greenwald its a Sap model who also did a turn in a cult film Donnie Darko. Add in the tact that the bass play er Sam Farrar is the son of the guy who wrote Hopelessly Devoted to You" for Olivia Nowton-John in Grasse, and all the ingredients are there for a modern-day Dino. Desi, and Billy.

But on The Guest DreamWorks) the boys of Phantom Planet which also includes guitarists vacques Brautbar and Oarren Robinson is selected their raising to produce a well out gem of an album, a sunli-collection of songs that take transparency and halvete as stubbornly positive values. Greenwald puts out youal chops that are

at times almost Bowie ish

Gleenward also writes the majority of the songs. There's a chorage of irony in the tyrics, as evidenced by the hit single "California" (featured on the sound track of *Orange County*), which at its seems to cripple them. Over the course of the collection. Inough, cheeriness is revealed as a form of Zen strength, most especially on the great of them genus of "Anthem". And summess can be sneakly effective when invoked against the lough paiches of growing up, as on "Lonely Day."

Greenwald wrote "Lonely Day" with Schwartz man who as the star of Rushmore and Stackers and the son of Talla Shira, is responsible for a lot of the band's ink. Their Hollywood horitage almost used them right out of the gate when Day disafter pushed out their debut 1998's Phantom Planet is Missing, too soon. The Guest is a giant eap forward. Stripped of its lineage. Phantom Planet is just an L.A. gerage band although the garage might just happen to have a Rolls in it. Come to think of it. Dino. Desi, and Billy weight half bad gither. G.A.

The Hollywood horitage of the Planet popsters almost rained them right out of the gate, but The Guest is a giant loop forward.

Actually, iran doesn't took or reel like any other place on the planet. It's a universe of jaming juxtapositions, dizzying ironies impossible contradictions.

Iran is after all a modern theocracy, so all the wonders of technology, and all the latest advartising techniques—are employed to market and botster Islam. the room, the reason viewers were turning away in droves from network news. For years he had argued his case behind the scenes, to no effect. His aditorial was not an act of rebetion he wrote it because he cared desperately about the integrity of the news business. As he said recently "If I worked at Enrich instead of CBS, would hey be calling me a trator or a hero?"

indeed, integrily and farmess are an obsession of the S6yeahold Goldberg. Unlike many of his former colleagues at CBS he did not come from a privileged background. Goldberg came up the hard way the son of a tactory worker in the South Gront he was the first in his family to go to college. He did not attend an ivy usague institution he went to Rottgers, a public bue-collar university in his early days as a reporter. Goldberg a liberal Democrat, covered the later stages of the civil-rights movement sovened by the race halted in so much of America.

But over the years as he tells it in his recent book Bias A CBS Insider Exposes How the Media Distort the News, he saw the character of liberalism begin to change. Where once if was a doctrine that preached color blindness and equal treatment for all, now it advocated racial preferences and excused the excesses and misbehavior of privileged "victim" groups and where once, in his own business, good reporters tried hard to remain neutral, casting a skeptical eye on all comers, in many mainstream newsrooms if became a virtual given that reporters who in their private lives were sympathor-

much of America is interested in and they think that by saving "No comment" or not taking about it on the record, or not taking about it on the record, or not taking about it period, that the problem is going to go bye-bye. They're crazy. This lan't going to go away. [The newscasters are] going to go bye-bye before this issue goes bye-bye.

Time magazine called me and wanted to do a piece, and they said they went to Rather, who had no comment, and Jennings, who had no comment. And they said Brokaw said "Get back to me," and when they did, he had no comment. So part of me thinks it's arrogance—It's the Steve Brit quote that to begin my book with. When it comes to arrogance, power, and tack of accountability journalists are probably the only people on the planet who make lawyers look good. And part of me thinks they're in denial. But when I think about it, think they re shall that it they analyze this subject of liberal bias. It will be an indictment of their entire careers, that its an attack on their inlegrity. It gets insceral, so they're incapable of having an intelligent, serious discussion about liberal bias, or even thinking about it too deeply, because they find it so threatening.

Now that's crazy, that's not what I intend, I don't think it's an indictment of their entire careers. I'm willing for them to start fresh tonight and start doing the right thing. Just want them to think about it and to the problem.

Didn't you suggest years ago duing a show with Rather about media bias?

don't have the cojones to tell their feminist wives,

'Yeah, we did a tough story on feminism. Too bad-we're journalists." "

ic to terminists, gays, and multiculturalists would be quick to defend those groups in their reporting of the news

Goldberg made his case with Bias, which quickly became a publishing phenomenon. Within a mobile of its December release it was No. 1 on the New York Times best seller list—and in what many perceived to be a dart almed at the press. President Bush was photographed carrying the book.

Stu-tellingly as far as Goldberg is concerned—Bias had received zero attention on the major networks.

Obviously based on saies of your book, there's tremendous passion out there around this issue of tiberal bias. But you to still shut out in some quarters.

That's true, tive beart on just about every radio show from Maine to California. I've beart on Fox, tive beart on MSNBC tive beart on CNN But there is no discussion at all with Dan Rather or Andrew Hoyward, the president of CBS News, or Peter Jennings or Fore Brokew or the presidents of NBC or ABC. Isn't it interesting that the one subject they refuse to cover is their own business? It may be one of their biggest problems as far as their viewers are concerned and they have an opportunity to tell the world how stupid, am and how wrong I am and they refuse to come on. They reliated to come on and have a civil discussion about intera bias. So basically tive come to expect that media beas is just not something, they religing to talk about on their own networks. They ought to it would endoor them to their viewers, but they re not going to do!!

So essentially, the major networks completely ignored a book that has made a trainendous splash

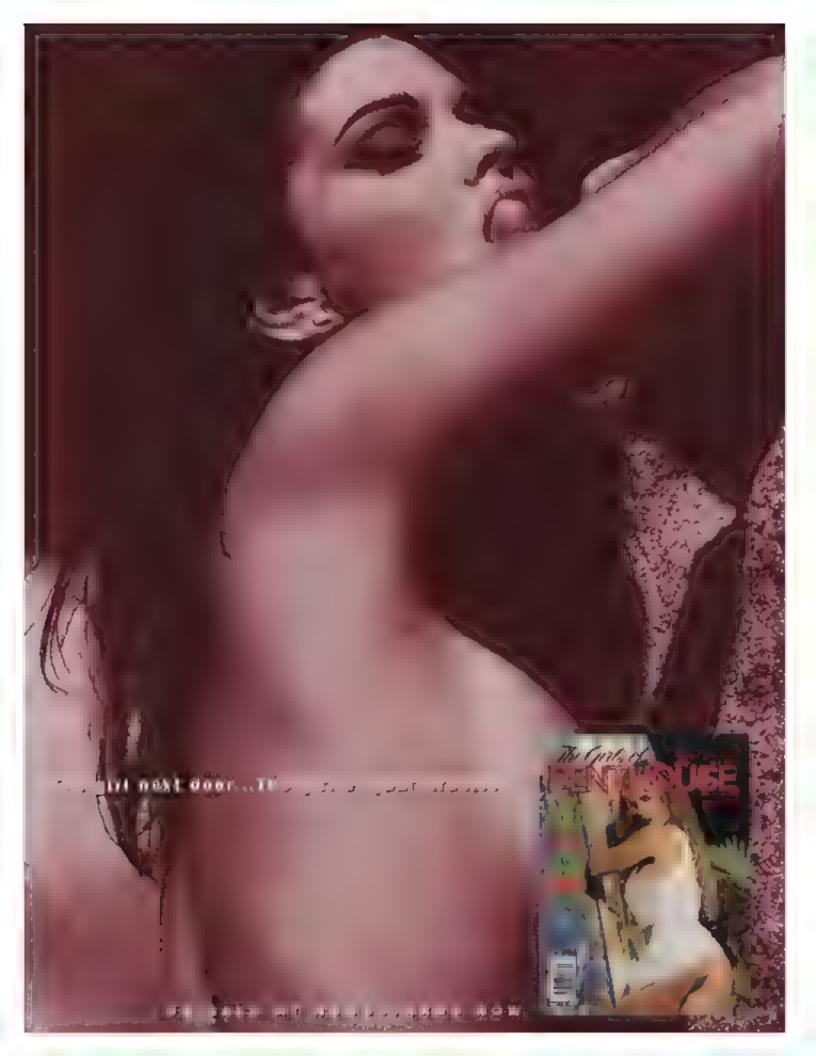

Not only that but a book about their own profession [Their behavior] is either disgraceful or just plain funny. There are times when think it's just hilanous. I mean here is a topic that

Yes. Eye to Eye With Connie Churto was a brand-new show in 1993, and I said to Andrew Heyward, who was the show's executive producer at the time, "Why don't we do an Eye to Eye) on whether or not there is a abertal blas, and get some buzz going for the show? We'll interview all the anchors and we'll interview intelligent, responsible prities * was also thinking. This is better their doing the ten thousandth piece on which sharrood you are better oil buying, or the ten milkorith story. about the runaway kid who became a hooker And Andrew looked at me as if I were from the planet Zutron or something. It still had a little clout back then, so "said" "Come on, let's do it." So he goes to the president of CBS News at the time. Eric Oberand comes back and says. "Eric says you can do it but you can't ask Dan any tough questions. I thought Andrew Heyward. was fedding. | acrually said, "it's a joke right?" He said no. said. "I'm not doing that story." And out of frustration—he wasn't angry-he just said. "Come on, we all know there's a liberal bias all the networks till roft." And the implication was, "Come on, that doesn't mean we have to do a story about it."

And or course he wouldn't even dare breach is with Rather That's right. You see, that's something I'm not sure people understand, how much power the anchor people have I said in the book that Iti]! CBS News were a prison instead of a Journalistic enterprise; three-quarters of the producers and 'OD percent of the vice presidents would be Dan's biliches." And while I know it's a funny line, the serious point I was trying to make its that if Dan Rather thinks there's no liberal bias, you can bet your assisthat the producers who work for him aren't going to say." Think you're wrong Dan I think Bernie's onto something. That's not goons happen.

How would you characterize your relations with Rather pror to all this?

Excellent. He would send me nice notes. I would always talk

to him when I was in New York. Absorbely 100 percent it endly and decent, and liked hanging out with him.

What kind of reaction did you anticipate from him when the Waii St eet Journal piece appeared?

Not the one got I could understand how, as a former matine, he shought this was one of his own troops fragging him, shooting the commanding officer understand that But that isn't what was doing at all If you're a newsman don't you want to keep an open mind to criticism, even if the coming from your own people? Just figured he was going to ester and say something like, "I'll read it, I don't think I'm going to agree with you, but hey we're all big boys around here and you're entitled to your views.

I realize now I was incredibly stupid or incredibly haive I just figured I you express your opinion and you do it aboveboard and you don't try to knife somebody in the back the way they do it.

by the way, they re always express-

toizes them and says there's a liberal bias must be the one with the bias. They say. "We're not the ones who are biased it's you. And the proof of your bias is that you're accusing us of bias." It's Orwelian, it's like 1984.

Didn't you have an exchange on exactly this point with former ABC News political director Hai Bruno on CNN^o

Yes. Hat Bruno—who im assuming is an intelligent man, allifough you dinever know it from the program he was on—started out by saying, 'Oh no, there's not a liberal bras. We've actually discussed if all A&C, and we came to the conclusion basically that there is no liberal bras." You're wondering if the guy is being serious.

think that denia is something that transcends television and journalism in my view. It has to do with how they see themselves. They see themselves as better than their audience. They think "We're smarter we know more and you don't. And since we're smarter and more important and better than you when you tell us there's a liberal bies.

the American culture, about whether she's crazy or not. Think they were both crazy to do the interview. And hobody nobody in the mansfream media ways. "You know what doing crazy, stupid in terviews like this is but of control." So say it and I become the bad guy.

As a viewar it's hard sometimes not to pick up on that arrogance—even a utile thing like the way an interview subject is often put at a disadvantage by not being in the same room as the

Because it's easier to ask tough questions when you're not facing the person

So you wouldn't necessarily see that as arrogance

There's just something in the human condition that makes a harder to ask tough questions to a nice person, who may have views that deserve to be charlenged when you're sitting two feet away from them, it's not natural, it's not natura, to invite somebody in-the person takes time off from their day or night—to come into your studio, sli down with you and then you got them. So if you put the person in some other studio and you interview them on a TV monitor. well, now they might as well be on the moon, and you can ask them anything. you want because they re not sitting there it's hard. When I interview somebody who needs to be challenged. have to osych myself up for it say. "Look, this person is leiting me into his house, he's letting meinlerview him, he's letting these prews in with their crap, and now have to say to him. "When did you stop beating your wife?" And I have to say to myself that there's a greater good here, this person needs to be asked these questions and I'm gonna do it

ve heard people say that after the initia. Wall Street Journal piece appeared what CES should have done was make you their media critic—that it would have been an innovative and interesting and successful move.

Right + think + they had done that hey would have alood out as an organization to be respected because they had the courage to look at liner own business and themselves. But of course they were ter too afraid I might say something that not only was true but would embarrass them. We make a misake in this country when we equate education, for instance, with awareness. Or decency. There are people who may be intelligent as measured by SATs and O tests but they re of in their own little. rantied world. They are no more aware then somebody living in the hills of Terrnessee, and no less provincial. They can go through their antire lives speaking. only to people like themselves never maeting anybody who disagrees with them. All the while they go merily along. fancying themselves very apphisticated. and worldly They're not-they're provin-

do if in a "don't use my name" basis.

But as you also point out, many of these people are genuinely not even aware of the bias

No I don't think they're aware. There's a line from an old Funkadelic song that goes, "The fish don't know he's wet." The reason the fish don't know he's wet is the fish doesn't have any other frame of ref-Grenoe: And the reason that these liber als dont recognize liberal bias is because they don't have any other frame of reference. They can go through their ves without meeting somebody who disagrees with them-not literally, of course, but aloss. So siter a while they just see their own newscast, and they say. "What liberal bias? What are you talking about?" This is the fish and if the rish could talk and you asked if it's the water wet?" he'd say. "What do you mean, wet ? What does that word mean?" But part of the reason for that is they won't look at the problem if you keep saying. "No problem, no problem. no problem, then you're never even going to consider that [someone cating aftertion to liberal bias' could possibly be right. So what they do is simply dismiss their critics as right wing ideofogues. They act as if enybody who crit

this is a reflection on you not on us Next question. There was one caller on a Baltimore radio station who put if to me in a way, thought was just elegant. She said. "They have ignored us, and now we're going to ignore them." Pretty suarch survival.

Have you ever had a conversation with anyone at CBS from Heyward on down, saying exactly frist that bids is why we're hamorrhaging audience? And what kind of reaction did you get?

said that in the opening sentence of my Wall Sheet Journal piece in 1996. So I had a discussion with them that way And instead they made me the issue. They turned me radioactive. The unwritten rule is nobody challanges anybody else at the networks. It's one big country club. Nobody at ABC chair lenges anybody at CBS, and nobody at CBS challenges anybody at NBC and nobody at NBC challenges anybody at ABC or CBS. We have this unwritten code in the media. This unwritten agreement, that hobody criticizes anybody. trebause if you do hey may childide you, and we don't want that. When he was growing up, his parents would play 800 Seger uchany Cash, and Chuck Berry records, and he dibang along on pots and pans. But if wasn't urvir Rock discovered the percussive rhymes of hiphop on Detroit muliradio shows that he realized his calling. His first concert was Run DMC and Felix and Jarve at age 12. Soon after he bought a crum machine and some furntables.

in high school he dee, ayed for a break-dance crew the Furious Funkers who performed at weddings and the loca: Burger King. He acquired his stage name from people in the audi ence who would say. "Watch that white rock " His first raps were his freestyle. introductions for the members of his posse. He soon discovered he had a knack for coming up with dever thyrnes. But along with his penchant for rapping. Rock developed a bad rap for denieng copping a juda, and commiting palty comes. When he was 14 his parents threw him out of the house for being surly and disobadien). So Rock moved into the projects with a rapner riend and got a job at the 76 Ca. Wash.

Rock slarted hanging with drug dearers, then seiting drugs himself. Before long he was pedding crack to support his music habit. Then for a short while he sold it to support his own drug habit. At the same time, Rock was deeplying basement parties and rapping at smaldiubs in 1990 he signed a dear with live Records, but Vanita ice had possened the waters for white appears Rock's debut. Gots Sandwiches for Breakfast flopped. Over the next few years. Rock would release two more discs and an EP on various tabels, but they all teled to score with the juttire.

Lack of success weighed heavily on Rock in 1992 when his then-girlfriend Kelley South Russell became pregnant with their son. There are two sides to Kid Rock On one hand here the cooky, hedonistic selfish, womanizing prick reflected in his trashy tout-mouthed tyrics. Don't or set up the spirit of justice. Mr. Asberoft. We have a right to see it clearly

n the Great Halt of the United States Justice Department in Washington, D.C. two statues have long reigned as symbols of justice itself. Spirit of Justice is a lemale figure covered mostly by a logal save for one entirely exposed breast. Majesty of Justice, her male counter part, wears a identioth. Apparently that was too much skin—or in this case aluminum—for Attorney General John Ashcroft. The 12-and-a-half fool-fail couple have now been hidden behind what some refer to as a "brue-nosed blue curtain", which, incidentally, cost more han both statues.

unfortunately the scantily clad sculptures aren't the only things being covered up. The meetings of vice President Diox Cheney con-

cerning energy policy and its possible relation to the Enron scandal have been kept under wraps. So have many of the president a papers of former Republican presidents, including the incumbent's father But he most frightening example of a is Ashcroft's posi September 11 decision to resist most freedom al information Act requesis made by the media academics, and American etizens in general.

This act passed in 1974 following the Nixon coverups that red to Watergate grants us the right to know what the government is doing—and thus to judge its actions accordingly But Ashcroft does not want to

be judged, and he is using the terrorism threat against the United States as an excuse to deny us this most essential right of our democracy (in a McCarthylis reaction to opponents of the war on terrorism he has even gone so far as to accuse such ontics of giving domfort and aid to our enames; The attorney general has instructed government officials to ask themselves before releasing any FOIA information whether "institutional commercial and privacy interests could be implicated by disclosure"

whose commercial interests is he worked about? It's not his job to cater to the initiatives of corporate contributors, even those who give enormous sums to the Republican Party. Not is it his job to protect government officials from

having their embarrassing screw-ups made public. As for finalitational interests, the FOIA statute itself purports to balance the publics right to know against the legitimate needs of confidentiality. Subject to judicide review, some discretion is vested in bureaucrats to decide how to respond to justifiable requests for documents in any such case. was on a business trip in Miami not too long ago, leaving my husband at home and on the first evening I went to spend some time in the hotel's indoor pool Before putting my awmsult on It gazed at myself in the mirror At 35. It is hard work trying to keep a young figure. The workouts in the titness center were paying off, because I was quite pleased with what I saw.

At the pool, hell into a conversation with Calista a 23-year-old Japanese-American law student on vacation—was surprised now quickly she and that it off was even more surprised at how drawn was to the incredibly beautiful and sery Calista. Her finy two-piece showed off a patter and quite delightful figure. Little did know that Calista was feeling the same way about me.

We'd been in the pool for some time. when I let Calista move up bohind me. Wrapping her arms tightly around my waist she whispered in my ear "You know, you're beautiful" if was a word I hadrit heard from my husband in a long time and it left good to hear it again. ", ve been thinking all evening long about making love to you." Calista whispered was quite shocked, to say the least, but at the same time quite excited To be desired again felt wonderful. And to be desired by another women was doubly exciting. As I turned to face Calista told her I'd never been with a woman before "Then let me be your lifst. Do you know how beautiful you and I would look in a sixty-hine? she said and figurally malted in her arms

Taking my hand in hers. Calistalled maild her poolside hotel room, where she removed my swimsut and then her own. I stared at her beautiful smalterasts and dark-brown hippies. Ever more beautiful was the eight of her pussy completely shaved of all its hair.

Living me down on the bed. Calista facing my knees, straddled herself upon me. She lowered her mouth to my pussy and began gently licking and sucking away "Oh Calista. Yes!" I cried expected up at this young woman's lovely clean-shaved pussy. Pulling her to my mouth. I began eating Ca. stain.

"As I stood there jacking off, she continued to caress her boobs, running her fingers over each, tweaking the nipples between her fingers."

"usl when was questioning the wisdom of this whole gambit, and beginning to think the police might indeed have leason to be displeased with meshe smiled and said. Okay.

Over the coffee the asked why was soffy for looking down her shirt "Well," began, "most women don't even like it if you look at their chest just walking down he street let alone actually look down her shirt."

Don't be sorry she said "a leave my shirts a little more open on purpose, it guess I like the attention. You're the first guy to be so honost about along a peek. Listen in need to use the rest room I it be right back."

Of course, was thinking. She's out of here out if an I saw she dite! her backpack with her books. A few minutes after she returned and opened her purse so that I had a clear view of its contents inside was her bra.

My eyes mimediately flashed to her occobs. She chuckled and say down across from me. "Finish your coffee."

She placed her elbows on the table and hundhed lorward on them resting her small tits on her forearms and giving me a wonderful vista of her cleav They were much as fid magned smallish and firm Perky would be an accuate description. As her hippies hardened my own hardness returned.

She ran her hands up her torso ingening at the side of each breast fingers outstretched and spread apart. Do you want to lerk off?" she asked

Uhrhuh,* said and lutribled at the fly of my pants to get at my pulleting member. I had never masturbated in front of anyone before nor had even thought about it, so this was an entirely hew experience and one where was completely on autopitot.

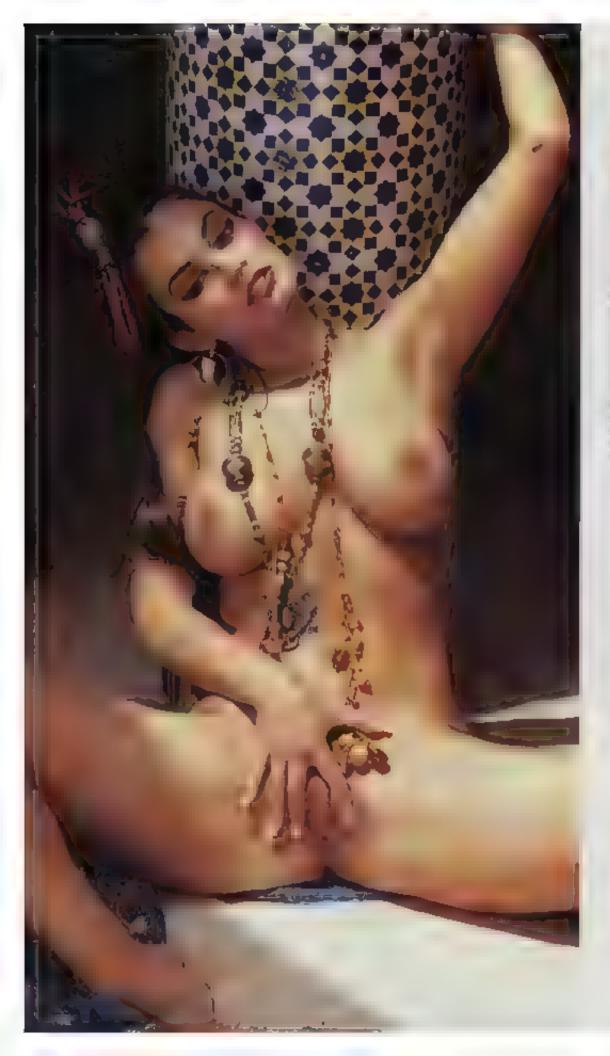

As a stood there jacking off, she continued to caress her books running her lingers over each, Iweaking the hippies between her lingers. This was an erosc experience of stanic proportions for me. Soon the head of my thickly veried cook was purple with anticipation. A drop of semen had crawled its way up to the tip I came with such furly that for a moment I feared, might actually shoot my wad across the stan and hit her. The first string of pearls, however only hisde the toilet. As I continued to unload, my body shuddered, and I became lotally lost in the momen.

KID ROCK

Detret when vie got signed. And losing a member of your fartilly is always hard for anyone. You just wake up tina morning and somebody's dead. It's the worst thing in the world, absolutely. And my situation is no better or worse than anyone clse's feel devastated, but don't like to dwell on it because why should people think, had such a terrible loss? mean what about his parents and his brother maw and his sister and his nephew who will never know him? In happy that I got to spend time with him and know him and show him a lot of things and have some great times with him.

Kid Rock, American badass has existed for years with a devil on one shoulder and an angel on the other. This duality could be a source of conflict, but for the man who sings, "You wanna tuck with me, don't test the odds / Cuz your arms are too short to box with God' or Forever," it's just another minor obstacle that's seally conquered by a solid moral code and a grin that says. "Aww, fucil it."

"I don't bicker with the devit or the angel. Just try to divide my time eventy between both of them" he says. "I got nothin' inside of ms that every red-blooded American male ain't got inside

him, just get to live the life. Any other red blooded American mate with the opportunity would probably be wid and take advantage of the same (targs have But inventory Ireat people like I want to be treated, whether It's a girt on a four bus who wants to fuckin blow me or it's a girt who wants a tiat signed for her little brother. I treat them both with the same fuckin respect. Nother different."

Rock stands behind his words and expects his loved ones to do the same. There's no cursing around the kids and it dunior wants to isten to a record with a parental advisory laber. Hook has to be there with him to explain what he's hearing, it may sound strange, but the guy who claims he "gets more ass than Mark McGrath, on Cocky, and boasts on You haver Me a Motherfulker Quit. It is Me" about getting high before meeting President Clinton, is raising his son to be politel generous humble.

Thanks to Viagra, men can be ready to rock in manutes. But what about women? Enter Viget, an all-natural topical get that increases a woman's chitoral sensitivity. It's made from L-erginine, which stimulates the development of nitric exide, which improves sequal sensitivity. "L-erginine gets the blood rushing to the genitals, which then helps a woman have an organi," says Viget spokesperson or Ave Cadell.

Prior to sexual relations, a dime-size drop of Vigal is applied to the citioris. Blood flow increases and the citoris becomes more responsive as it is manually stimulated. During arounal, the citoris awells to four times its normal size, a process that normally takes about 20 minutes of foreplay. According to Cadeli, Vigel can cut that time in half. The gel causes a lingling sensation that usually lasts from one to two hours, and Vigel can be applied more often, as desired. For more information, visit www.vigelusa.com.—.1.6

As far as you re concerned is there any distinction between CBS, NBC and 4BC? is one of the three better or tess biased than the others?

Not to speak of it's all the same. They all do based reports from time to time. They don't do it on every story. They don't do it every day. If the story has to do with a humana or September 11 or a ionnado or some catastrophe like that they give it to you pretly straight. It's when they get into the social issues that they have a take, and overwhelmingly the take is left of contor.

Right Katie Courte deserves the \$65 million they're paying her because she's figured out America. She's figured out. that if you feel sorry for everybody including a woman who just killed her five lads by drowning them—and if you make wisecracks about men from time to time. America will love you. Do you think Fox, with its clearly more conservative-triendly point of view, has changed the way the net work news divisions do business?

I rea ty don't think it has Frankly 1. don't think he mainstream news divsions believe Fox is in the same business they are I hink that the media sites think that most of the viewers, if not all of the viewers, who went over to Fax are right wing nuts, and these people want a right-wing bias in the news. And some of them do. That's what we have to fess up to Some people who say they want the news straight ready want a right-wing newscast But iminot one of them. I (bink that), generally speaking. When your friend says "safe." as sume he is averse to sharing bodily the ids which may mean he doesn't sucknot even hippies. I also find that men who boast about their conquests are aften bullshifting and may not be quite such brilliant lovers as their anecdores suggest. Maybe this girl has invented a clever way of keeping first dates out of her underpants and is taking. Indice he says "safe" and "satisfying" but he doesn't say "good."

I am often asked how I would define good sex. The best definition I ever heard was from a California sex therapest it went something like this "You're having good sex if you feel good about yourself about your partner and about what you're doing. If, after you've had time for reflection you still feel good about it all, then you've had good sex.

It need not include orgasm, or even hiercourse, which can last from a few seconds to all hight

Machisma

When I was 22 I dated a voluctuous morena with the pretilest face I have ever seen. After some time we broke up. because was ridomable (unlamable) Soon afterward I saw this dude dating her I'd known him since we were ahii dren but we'd never been close friends. Besides you know how macho duys are we think that no one should have a woman who once belonged to us, even if we no longer want her i thought about saying something to him, but changed my mind once I came to the conclusion that it was no longer any of my business. and that she was so pretty it was the most natural thing to happer

I was their dating another gin, a moder look-alike, but we too broke up. With in two months the same dude was dating her and the voluptuous morena was nowhere to be seen. That's when I really thought about putting him in check. But the friendship between our parents stopped me. Again I thought. This one is so pretly, it's just natural he too would like her.

I hadn't completely convinced myself but I let it go. Then the same thing hadpened with two more girls I didated it didn't dere ask him or the girls about it I didn't went them to know i seent a lot of time thinking about these 'coinci cences, or believing that was jealdus.

When I was 24 I married a lovely rod head. People say that air good assences come in small bottles, and this chapanita (shorty, was absolutely beautiful from head to too But she was jeed out, and wasn't the only woman I was bodding, so after a year we decided to dwome.

Then I came to the United States Ailler a couple of years I got into trouble and ended up in prison. It was there that I received a letter from my more talling me that my ex-wife was getting marned to the same dude who'd dated all my ex-girliner dis. It freaked me out, not because I cared about her getting marned again, but because this guy had again tracked me down. Then I though. Fuch it, if he wants to come behind mo and pick up my reflevers. I don't care but "m not going to follow behind any body else."

I just can't figure this out. Sometimes / think that maybe he has the same taste. as I but I really don't have a particular preference when it comes to women We both lived in a big city where there were thousands of pretty women Maybe he was trying to be fixe ma. but we already resembled each other in that we bold are tall slim brown-skinned and handsome. Maybe he's just a razy motherfucker and he liked the way the gris made love, because - was the first for three of them and everything they know they learned from me. Or maybe it was just a game to him. It might just be my macho ego risino again-

If seems to me that the girls I treated badly he also treated badly, and the ches I treated with respect, he did as well I lohow you are a wise woman and I hope you can tell me why a person would behave this way. L.J. New York

says she signed the consent form while still under the influence of drugs ad ministered to ease her pain after a Caesarian delivery

The young mans attorney David blewellyn, an anticrouncision advocate holds that in Ms. Chester-Taxin's words the foreskin provides its owner with vital sensory, protective and sexual functions throughout his life. This may answer your question about your premisture electrications and loss or control.

Circumcision has been suggested as a cure for everything from premature ejac utoflor to excessive mosturbation, but there is no medical evidence to back up these claims. The only medical reason to cut the forestim is when it is so tight that it cannot be pulled back over the glans causing problems with hygiene and sexual intercourse. The condition is known as themes is fiven in that case, however it is only necessary to make what is known as a dorsal slif, a cut along one side of the tarestim, allowing it to retract.

four penis has lost not only its whap per but a mass of sensitivity provided by the nerve endings on the inside of the forestin. The result is a garbled signal sent to that part of your brain that controls your sexual relieves.

The condition will probably improve as your dick head becomes desensifized from rubbing against your under wear. Like the hands of a construction worker which become callused with joil to will rarder to withstand the rigors of its ris a unprotected environment.

fou do not explain why at the age of 41 you decided to get circumcised, but can probably guess you were propagandized into it. Certain religions prescribe ordum: 1 alson, and in some cases it includes the circums and the land a nin tally narried of. This religious multilation—on par with the antiqued Chinese custom of briding womens, and the land of the ears lips, and theeks—its a hangover from prehistery but sadily is still practiced on a vast scale.

American doctors, I am sony to say rend to persuade parents to have their male offspring diroumcised as the tash contible thing to do (for other groups of parents, like those of the Jewish latch there are religious easons for biroumcision), so that when their sons grow up they are not made fun of in the changing rooms for being idifferent

In Eligiand where the operation is not inversed by the historial stear historial series of as in much of the estimate a full full series of Europe, where the foreskin has made a welcome cometod kilor she hard-cure point scane.

The Physics Common

I'd like to comment on your recent remarks about humor being an integral I

part of good lovemaking. I agree with you 100 percent in fact the moments in sex I remember with the most clarity. besides the 'firsts,' all have to do with something funny happening. And the wonderful thing is that in each instance. the humor actually enhanced the lovemaking. It may sound like a contradiction, but being able to laugh at something that you, your partner, or both of you do, adds an extra sense of intimacy. Let's face it: You are never more vulnerable than when you are naked and sharing yourself with someone else

Here's a perfect example. My girlhiend Robin had on her coffee table a copy of Cosmopolitan with the blazing COVERTINE 15 POSITIONS TO MAKE YOUR LOVER SCREAM. She saw me reading it

and grinned.

The next thing I know, we were in the bedroom trying positions that I believe were created by Tomas de Torquemada for the Flying Wallendas. There was one combination that was rated a nine on the difficulty scale. Robin said, "No way! We can't get into that position!" Always one to rise to a challenge. I said we should give it a try. Well, in the process of trying one of the most difficult mounts of my life, I lost my balance and fell backward. Suddenly the world was moving in slow motion. Robin struggled to get upright and reached out to grab me, I floundered, arms waving mady, to keep from failing over it was all for haught I tumbled completely over, and did a back filp off the bad. The next thing I saw was Robin's head pasting over the edge of the bed, laughing hysterically, tears streaming down her face. She barely got out the words "Are you all right? I was laughing just as hard. and replied, "Not I think I just broke a nib" (which I had). We stayed in that posture for about ten minutes, just laughing Then I got up on the bed, we auddied for a while (still laughing, although I was in pain), and made love for what seemed like hours (in far more traditionas poses of course)

This is one of a handful of smilar incidenis from my past in some cases I was comfortable with the woman I was with and vice verse, which meant we could laugh together at what happened.

There were other occasions when the laughter was densive. In those cases,

that comfort level wasn't there

Let's lace it To be able to laugh at and with each other takes trust-trust that when you laugh it isn't a hurtful. spiteful laugh, that you're doing so at the humor of the situation and not at the person. That's a kind of trust that only really comes with love. And that's always been my argument

I believe that bust is at the heart of every aspect of a relationship, from humor to sex I was in a relationship with a woman who d been a victim of

date rape a few years earlier. We were making love once and she asked if we could try it with me behind her Afterward, we were lying in bed together and she started crying it was then that she lold me that she had been assaulted, and that ever since the assauh she had never been able to trust a man to be behind her during sexuntil that evening

Heart or body, trust is the key to a great relationship and lovemaking. At least that's my opinion -C.J. New York

One of the great breakthroughs of the sexual revolution is that we are finally allowed to poke fun at sex it all used to be so serious the biting question was Is it pornographic or merely erotic?" To suggest that a pair of normal humans enjoying collus tend to look ridiculous was considered almost blasphemous. Now thank our lucky stars, we can laugh about it and console ourselves with the fact that although we may look. silly lucking, other animals, particularly dogs, look even sillier.

One day while visiting the San Fran-0500 Zno, my bayfriend and I slopped to look at the cougar cage. Two of the cougars were giving each other hell. teaping at one another, spitting and clawing A middle-aged housewile in the crowd shouted, "Somebody should do something. They're gonna kill each other." My boyfriend caught the wornan's attention "Madam" he said, "they are not lighting, they are making love "That's disgusting," she said. "They

should be stopped."

The real problem is that the sense of humar, like the libido, has different levels and different points of view. I'll always remember a conversation at a perty in Ixtapa, Mexico, at which some one was explaining how wonderful the English sense of humor is. An anstocratic Spanish lady wrinkled up her nose and said. English humor? Isn't that when they laugh at something that is not funny at all?"

Well then, the basis of a good relationship is not only to have similar sexdrive levels, but also a comparable sanse of humor So before you say "Yes" or "I do," make sure you can both laugh al the same jokes OI

Four years ago, Lisa Collier Cool was cried by the American Liver Foundation. for "raising public awareness" with her groundbreaking report in Penthouse on hepatitis C, a blood-transmitted virus that severely affects the liver and is contracted by three to four million people annually, with an estimated 170 to 200 million already affected worldwide (more than HIV and herpes combined). But there may be some good news on the horizon. In "Men's Health & Fitness" we report on new drugs and medical procedures that could transform hepatitis C from global emergency to distant memory.
